

## West Nile Virus Update

Tarrant County Public Health ▶ October 22, 2013  
For questions at any time, call 817-321-4986

### **MOSQUITO SAMPLING – ALL POOLS ARE TESTED FOR WNV AND SLE.**

#### **WEEK OF 10/12-10/18**

71 mosquito samples were submitted to the laboratory

#### **LABORATORY RESULTS:**

- One sample from Colleyville tested positive for WNV
- All samples tested negative for SLE

#### **To Date, as of 10/18**

Total WNV samples: 42

Note: 32 samples resulted positive at the North Texas Regional Lab; 10 resulted positive in a private lab

#### **Total samples tested at NTRL: 3,871**

Location of positive samples: Grapevine (10); Arlington (7); Pantego (2); Grand Prairie (4); White Settlement (1); Fort Worth (5); Southlake (6); Kennedale (2); DFW Airport (1); Keller (1); Unincorporated (1); Watauga (1) and Colleyville (1)

#### **HUMAN CASE ACTIVITY**

There are six (6) human cases of West Nile Virus (WNV – 2, WNND -4) in Tarrant County so far this year, two of which have recently died. The deaths were a south Arlington man in his late 70s and a south Fort Worth man in his 30s, both of whom had West Nile Neuroinvasive Disease and other medical complications. Cities with human cases are Fort Worth (4), Keller (1), and Arlington (1)

Residents are encouraged to remain vigilant regarding West Nile Virus.

Additional information can be found at the [Take Control – Stop West Nile Virus](http://health.tarrantcounty.com) web page at [health.tarrantcounty.com](http://health.tarrantcounty.com). The web page also includes a link to an interactive West Nile map that allows people to search for ground-spraying locations, mosquito pool positives, mosquito trap locations and human case data.
