SEC. P. WATER WELLS

A Water Well Drilling Permit is required prior to any private Well being drilled. All Water Well Drillers must be licensed as required by the State of Texas.

Drilling permits will be issued only if the following conditions exist:

- 1. Well driller or property owner will provide the city with a plot plan showing all buildings on the property and the proposed location of the Water Well.**
- 2. No Water Well Drilling Permits will be issued to drill within 1,000 feet of a city-owned Well.**
- 3. Maximum depth of any private Well is 300 feet.**
- 4. No Well shall be drilled within ten feet of any lot line.**
- 5. All state and federal regulations shall be complied with.**
- 6. The well driller shall provide the city with an affidavit upon completion of the Well with the following information**
 - (a) Final depth of Well.**
 - (b) Type and size of casing.**
 - (c) Was the Well casing pressure grouted and what was the quantity of grout used.**
- 7. Private Well can only be used for irrigation purposes.**
