CITY OF COLLEYVILLE WATER/SEWER UTILITY SERVICE AND DEPOSIT AGREEMENT

I. PURPOSE. The City of Colleyville ("City") is responsible for protecting the drinking water supply from contamination or pollution which could result from improper private water distribution system construction or configuration. The utility enforces these restrictions which are in place to provide this protection to ensure the public health and welfare. Each Customer (herein "Customer") must sign this agreement before the City will begin service. In addition, when service to an existing connection has been suspended or terminated, the City will not re-establish service unless it has a signed copy of this agreement.

II. DEPOSIT. The City shall deposit, upon receipt of payment, the deposit amount into the Customer's account held by the City to secure payment of all utility bills against Customer and performance of all obligations contained in the Customer's application for utility services. The deposit shall bear no interest and is subject to all the conditions stated in the Customer's application for water services. The deposit shall be applied to the final bill upon written notice from the Customer to terminate water/sewer services. Customer hereby agrees that any current or outstanding balance on Customer's account accrued against Customer may be taken from the deposit.

III. RESTRICTIONS. The following unacceptable practices are prohibited by State regulations.

- A. No direct connection between the public drinking water supply and a potential source of contamination is permitted. Potential sources of contamination shall be isolated from the public by an air-gap or an appropriate backflow prevention device.
- B. No cross-connection between the public drinking water supply and a private water system is permitted. These potential threats to the public drinking water supply shall be eliminated at the service connection by the installation of an air-gap or a reduced pressure-zone backflow prevention device.
- C. No connection which allows water to be returned to the public drinking water supply is permitted.
- D. No pipe or pipe fitting which contains more than 8.0% lead may be used for the installation or repair of plumbing at any connection which provides water for human use.
- E. No solder or flux which contains more than 0.2% lead can be used for the installation or repair of plumbing at any connection which provides water for human use.

IV. SERVICE AGREEMENT. The following are the terms of the service agreement between the City of Colleyville and Customer.

- A. The City will maintain a copy of this agreement as long as the Customer and/or the premises is connected to the City.
- B. Utility service is subject to all City Ordinances and Policies established by the City, including the City's Water and Sewer Policy and Procedure Manual.
- C. Customer agrees to pay for all water and/or sewer furnished to the premises according to meter readings and rates prescribed by the City, until this agreement is terminated by written notice to discontinue service filed with the City and signed by Customer. The City reserves the right to adjust rates for services and Customer hereby agrees to pay the rates for services that are applicable at the time and established by City Ordinance. If Customer fails to comply with the terms of this Agreement, the City may terminate Customer's service and Customer shall forfeit their deposit.
- D. The Customer shall allow the service locations to be inspected and/or accessed by City personnel, at all times, for the purpose of installing meters and other apparatuses which the City may desire to install therein in connection with the furnishing of water or sewer services hereunder and for the purpose of monthly meter readings, requested repairs and/or the removal of any City owned property which was installed upon the Customer's request.
- E. The Customer shall further allow the property to be inspected for possible cross-connections and other potential contamination hazards. These inspections shall be conducted by the City or its designated agent prior to initiating new water service; when there is reason to believe that cross-connections or other potential contamination hazards exist; or after any major changes to the private water distribution facilities. These inspections shall be conducted during City's normal business hours.
- F. The City shall notify the Customer in writing of any cross-connections or other potential contamination hazards on their premises.
- G. The Customer shall immediately remove or adequately isolate any potential cross-connections or other potential contamination hazards on his premises.
- H. The Customer shall not sell to others or otherwise dispose of any of the services supplied to Customer pursuant to this agreement.
- I. The Customer shall, at his expense, properly install, test, and maintain any backflow prevention device required by the City. Copies of all testing and maintenance records shall be provided to the City.
- J. If a leak occurs on the City side of the meter, the City shall repair the leak and/or replace the meter if the leak cannot be repaired. Reimbursement for water loss due to a water leak on the City's side will be evaluated on a case by case basis. If a leak occurs on the Customer's side of the meter, they are responsible for any and all repairs associated with the leak and paying for the water loss.
- K. The City may discontinue water service without notice at any time and for any reason. The City shall never be liable to Customer or any other person(s) for any damage by water or sewer or otherwise resulting from defective plumbing, broken or faulty service or water or sewer mains, or replacement or repairs to said mains, or from any condition of the water itself of any substance that may be mixed with or to be in the water furnished to the Customer.
- L. Utility bills must be paid on or before the delinquent date shown thereon, otherwise a full penalty will be enforced. In the event a utility bill is not paid on or before the delinquent date, water or sewer service may also be discontinued after written notice to Customer in accordance with the law and shall not be resumed until all bills are paid, together with all applicable penalties and reconnection fees established by the City at the time the service(s) are discontinued.

V. ENFORCEMENT. If the Customer fails to comply with the terms of this service agreement, the City may, in its sole discretion, terminate service and/or take any other action authorized by law. Any expenses associated with the enforcement of this agreement, including any collection action relating to this account, shall be billed to the Customer.
